### CATARRH OF THE STOMACH.

INTERESTING FACTS ABOUT THIS PE. CULIAR DISEASE.

A Well Known Man Relates His Experience and Tells How He Succeeded in

Getting Relief.

From the St. Louis, Mo., Chronfele. "No one knows except myself the amount of suffering I endured for upwards of four years, from what I was told was catarrh of the stomach." The speakwas Mr. J. P. Fox, one of the best known professional swimmers in St.Louis, now at Professor Clark's Natatorium, Nineteenth and Pine. Professor Fox's occupation necessitated his being in the water several hours every day. He contracted a severe cold, which he neglected, then another and another, and finally he worke down, the effect of these colds seemed to debilitate and finally disease his stomach, and he had such symptoms as stinging pains in his head, an indammation of the membranes of the throat and air passages, which filled with a silmy substance, his appetite failed him, he became gaunt and thin and excessively nervous—all of which denoted catairth of the stomach. An attack of vertigo one day rendered him unconscious for half an hour, after which he was confined to the house, and scarcely able to walk across the room. He was sleepless, had violent pains and indirection of the worst kind. Mr. Fox said to our reportor "Often I would be selized with a feeling of suffocation. This went on until one day a friend insisted that I try Dr. Williams' Pink Pills for Pale People, and he read to me a paper wherein several cures of cases similar to mine were reported. I determined to give them a trial. My mother threw the doctor's medicine away for the bill are the relowing:

I determined to give them a trial. My mother threw the doctor's medicine many and actually before I had taken half of the contests of the first box I began to sleep well, with my returning appetite I began to take a better view of life, the grawing sensations in my stomach disappeared, I ceased to beleh up gas and han no feelings of voniting after eating, the house, I kept on with the pills, and well, within a month, I vertainly at the house. I kept on with the pills, and well you see me now. I feel as well as ever I did, and I don't suppose there is a sounder man physically than myself in the country. I am in and out of the water three and four times a day, giving swimming leasons, and I certainly attitude my present good health to Dr. Williams Pink Pills. You can use my name if you want to, and I shall be pleased to tell of the great benefits I have derived from the use of the pills at any time.

## THOSE KANSAS CITY BILLS.

City Counselor Rozzelle and Hon. John C. Gage Explain Why They Were In-troduced in the Legislature.

The bill introduced in the legislature ouple of days ago regarding the ignue of bonds in payment for the water works plant is similar to the enabling act of 1805, which authorized the city to issue bonds which authorized the city to issue bonds for the construction of works of its own. The provisions of the city charter are de-fective in a number of minor particulars, and these defects are remedled in the bill. The city's counsel also thought best to have legislative sanction instead of charter pro-visions and the bill was introduced to clear up all matters pertaining to the issue of the bonds.

The principal provisions of the bill are

bonds.

The principal provisions of the bill are the following.

Any city now having, or which may hereafter have, longso mhabitants and less than 100,000, organized under general laws or special charter may, for the purpose of paying any inholtedness of such city which may have been ascertained and determined by a Judement or decree of any court of competent jurisdiction, issue and sell nerottable bonds of such city to an amount sufficient to pay off and satisfy such judement or decree; such bonds to be made, issued and sold as may be provided and directed by ordinance.

"Such bonds shall be issued in amounts not less than five each and may be negotiable in form and shall become due at such time not exceeding twenty years from their date, as may be provided, and shall bear interest annually or semi-annually at a rate hot exceeding 6 per cent, the principal of the content of the principal content of the content of the principal cont

provides that they shall run for from five to twenty years. One-fourth of the bonds must be taken up and canceled at the end must be taken up and canceled at the end of five years, and one-fifteenth of the remainder must be taken up and canceled each year thereafter. The purchasers of the bonds, which have not been issued yet, would, we understand, pay more for them if they were straight ten, fifteen or twenty year bonds. As we want to get as much as possible for the bonds we are proposing to amend the law so as to permit the insuing of the water works bonds for ten significant. ng of the water works bonds for ten. ing of the water works bonds for ten, iff-teen or twenty years, as may be decided best. Another thing that we want em-bodied in the law is a provision that will enable us to apply the net income from the water works to the creation of a sinking fund to redeem the bonds when they fall due and to pay the interest upon them."

# CLEVELAND'S FOREIGN PLAN

IT IS PUNCTURED BY SUNATORS LODGE AND HAWLEY.

They Rept the Democrats Very Nervous Yesterday by the Way They Exposed the British Leaning of the Cleveland Regime,

Washington, Jan. 21.-The pooling bill was favorably reperied to the senate toby Mr. Butler (Dem., S. C.)

Mr. Chandler stated that the report was ot unanimous and gave netice that when the bill was taken up he would effer an mendment concerning the submission of

n the diplomatic gallery, accompanied by evolution, which is one expressing gener dly the disapproval of the senate in the action of the administration by withdrawenswer, he said, the filmsy attacks made

saw the secretary of state?" asked Mr.

that point. Mr. Hawley rose to reply, hold-President Cleveland's authorized statemen of the facts concerning the royalist Hele gates. Mr. Hawley said he had not intend ed to maintain that a personal interview between the president and the royalist had occurred. He was reliably informed continued reading from the president's statement to show the royalist delegates had seen Secretary Gresham. It should the representatives of those conspiring to restore a deposed queen. They were in Washington either as conspirators against the existing government of U...ail, or else they were here on an honest mission. If it was honest they ought to have been rere conspirators they should not have were conspirators new should not never been seen by Mr. Gresham. Mr. Hawley read from the letter of the royalist delegates to the secretary of state:
"We, the undersigned commissioners sent by the deposed queen request an interview

"Just think of the audacity," said Haw-

ley, "Think of this request to our secre-tary of state after we had formally rec-positived the government of Hawali." Mr. Hawley read further from the re-

ood up he was too short. These critics ere bound to find fault.

were bound to find fault.

The president's letter to the royalist delegates was purely unofficial, It was part of the conservative course by which the president, with a steady head and strong bend, was endeavoring to conduct unbits hand, was endeavoring to conduct public As to these royalist commissioners, Mr.

As to these royanst commissioners, any referred to the constant presence re, prior to the dethroning of the queen, those who sought to overthrow that twernment. That revolution was hatched this country and in the office of the en United States minister at Honolulu.

The Samoan question was unexpectedly interjected into the debate at this point.
Mr. Gray referred to the fact that the
United States was not bound by international agreement to keep a barbarous
king in power in Samoa. It would not do
to declaim against a barbarous queen
when we were at the same time protect-

delegates who came to Washington. Mr.
Losige thought it a peculiar coincidence
that warships were withdrawn in July, at
the time when the royallsts arrived here.

The present administration was openly
and avowedly opposed to the existing government of Hawaii. The speeches of senators in defense of the administration were
in effect speeches in support of the royalist element of Hawaii. But it was time for
action by congress. It was no longer a anestion of the new or the old government of Hawali, but a question of maintaining American interests in Hawali. The senate had heretofore passed a resolution stating that any foreign occupancy of Hawali would not be tolerated by the United States. This was a threat to the rest of the world. It created a responsibility on the part of the United States. It should impel us to uphold the existing government because it represented American interests and American spirit as against foreign sentiment.

Mr. Lodge closed with an impassioned protest against pulling down the American flag when it had once been raised.

Mr. Kyle gave flaures from the latest Hawalian year book, showing the many millions of American capital invested in Hawaii.

Hawaii.

"How much of that is held by one man—claus Spreckies?" asked Mr. Gray.

Mr. Kyle did not have the figures as to Spreckels. This closed the Hawaiian dehate for the day, and the senate proceeded to the consideration of the Nicaragua canal bill, Mr. Turple, speaking against the project. Mr. Turple had not concluded when, at 4:30 p. m., the senate held a short executive session, and then adjourned.

House Proceedings.

The ladian appropriation bill, which has been under consideration for five days in the house, was finally passed to-day. It carried 26.649.89 when reported, but as passed the total was considerably augmented, one amendment alone (to pay the first installment for the purchase of the Cherokee outlet) carrying \$1.696.09. Several unimportant amendments were added to the bill to-day.

The senator said he desired to make no personal arraignment of the president, but he (Hawley) believed the president's whole course on Hawaii had been wrong.

Mr. Gray again answered the criticisms upon the president. He said these attacks were no constant, the animus so evident, that it was perhaps useless to controvert them. Some people seemed determined to attack the president, whatever the subject be. If he said down he was too long, if he stood up he was too short.
